MC600

MC644

MC600 is a new curtain wall system capable of providing impressive, practical & economic glazed facades as a solution for both small and large scale multi-storey commercial buildings and ground floor treatment.

- U Value 1.6W/m²K (Depending on design)
- Air 600pa
- Water 600pa
- Wind 2400pa

The images illustrate the type of suitable application and are not binding in specification, colour or detail

MC600

MC600 is a new curtain wall system capable of providing impressive, practical & economic glazed facades as a solution for both small and large scale multi-storey commercial buildings and ground floor treatment.

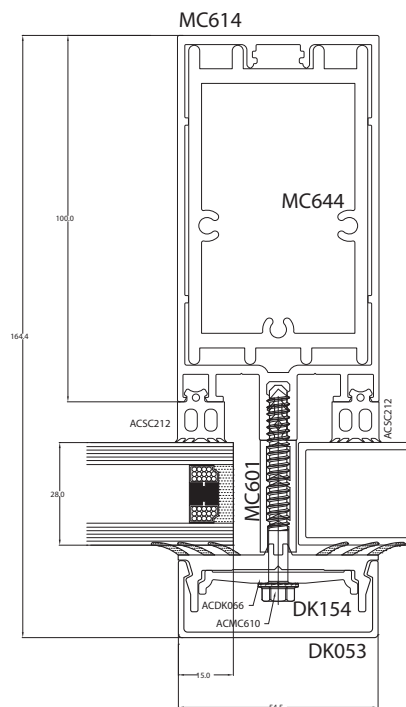

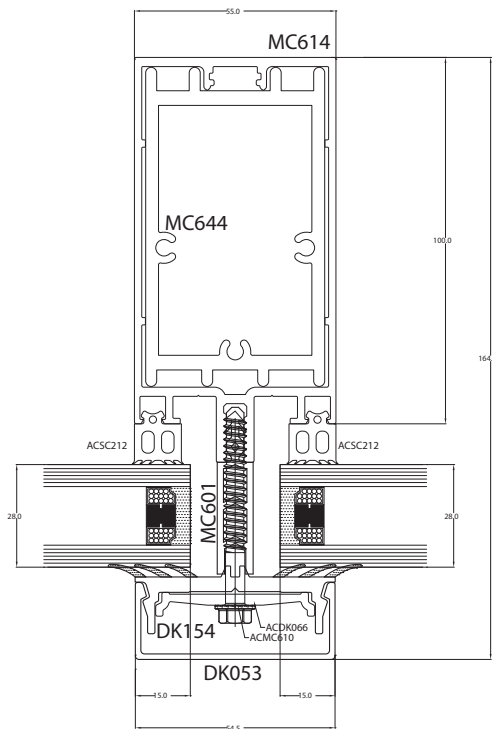

The system has been designed with efficient fabrication in mind. MC600 benefits from an inter-changeable transom/mullion profile that allows fabricators to utilise the same section for both purposes, whilst achieving consistent sight lines.

MC600 is assembled on-site by a stick build system and can incorporate Smart window and door inserts.

Technical Performance

U Value	1.6W/m ² K (Depending on design)
Doc L	Yes
Glass	24mm, 28mm or 32mm
Dual Colour	Yes
Air	600pa
Water	600pa
Wind	2400pa
Testing	Successfully tested to CWCT standard
